PRICE 5 CENTS.

SUGAR TRUST EMPLOYEES ARE INDICTED HALF OF HAWAII'S CROP SHIPPED

200,000 TONS SUGAR SHIPPED

With Less Than Half of the Crop on the Way—Outlook Is Good for Considerably Heavier Year Than Last

On May 1 the total sugar shipments for the season through the agency of the Sugar Factors Company amounted to 5 per cent more than at the same time last year. Two hundred thousand tons of sugar had been dispatched on its way at that time as against 190,000 up till the same time in 1908. This is a little less than 50 per cent of the estimated crop for the year.

The estimate of the crops handled by the Sugar Factors Company for this year is placed at 440,000 tons. The total shipments through the company last year amounted to 426,000 tons.

The Sugar Factors' Company handle about 82 per cent of all the sugar grown in the islands, only about 90,000 tons being shipped through other sources, so the company's estimate on the total crops can be made with a very fair degree of accuracy. The total shipment for this year is estimated at about 16,000 tons in excess of that for last, but the total is a conservative one, and the final figures will probably run above rather than below.

Whether the concerns not shipping through the Sugar Factors' Company will show an increase on the same scale as those connected with it, is an open question, but there seems to be a prevailing idea that favorable conditions which have prevailed during the several months passed will be found to have

had their effect on nearly all of the plantations.

On the other hand, one of the reasons for the increased showing of the Sugar Factors' Company is the remarkable stride made by some of the plantations shipping through the organization. The plantations that have shown the greatest increase during the present year are: Wailuku, Melbyde, Olua, Kekaha and Maui Agricultural.

There yet remains about 220,000 tons of sugar to be shipped. The last shipment will probably be made about the middle of September.

Makaweli continues strong on the 'Change, with practically none in sight. Forty was offered this morning, but no sales were made. With the bonded indebtedness disposed of, and a heavy crop this year, a material increase in dividends next year is looked for under any sort of favorable conditions.

Waialua is selling in a few small lots at 95 and in big blocks at 95 1/2. But half of the crop has been disposed of, but the increase so far over last year's production exceeds 3,000 tons. Conservative estimate places the total crop at not less than 29,000 tons.

Waipahu is expected to produce at least 36,000 tons this year.

Large blocks of Ewa are changing hands these days, the latest going at \$29. The cause of these sales is not

NEW SUGGESTIONS FOR WHITNEY'S JOB

But Hemenway Folds His Cloak of Mystery About Him

The question of who is to be Deputy Attorney General to succeed Mr. Whitney, the present incumbent, is still unanswered, and the Attorney General is still mysterious. But many wild guesses are being made about the Capitol and Judiciary buildings and a good many of the local attorneys think they have hunches, while others have hopes.

The suggestion was made this morning that Representative Kealawa might be good timber out of which to construct a deputy Attorney General. Kealawa has a license to practice law, as he proudly informed the House of Representatives not long ago, and it is certain that the license is a good one, for it was largely on the strength of possessing it that Kealawa was elected to the Legislature. During the campaign he used to take it out of his pocket and shake it in the faces of his audiences and explain to them that he

Per Diem Rate For Hospital

There seems to be but little chance, according to the present outlook, of an annual appropriation for the Queen's Hospital. Though, at the start, the Supervisors were inclined to favor that plan of assistance, the majority have experienced a change of heart, and it seems more likely that a per diem arrangement will be made.

With an iron-clad agreement that city and county patients are to be cared for at a fixed rate per diem, the authorities would have the final say as to what persons should be accepted and which should not. It is believed that, as it is manifestly impossible for the Queen's Hospital to take all that apply, such an arrangement would cause less grumbling on the part of dissatisfied ones.

Supervisor Quinn, who, at the outset, was a strong supporter of the blanket appropriation scheme, has come to see things in a different light, and will probably vote in favor of a per diem arrangement when the matter comes up.

At the last meeting of the Supervisors, the hospital trustees expressed a willingness to accept county patients at \$1.50 a day.

KAIMUKI RESERVOIR TO BE BUILT SOON

Funds Available After Beginning Of New Fiscal Year

One of the first enterprises to be undertaken by the Public Works Department after the beginning of the next fiscal year, July 1, is the construction of the proposed new Kaimuki reservoir. There is no money available for the purpose now, nor will there be until after the new order of things goes into effect. The Legislature provided that water works improvements must be made out of the moneys received for water rates. The water rates are payable July 1, so there will be money for the project as soon as they begin to come in.

It is estimated that the new reservoir will cost about \$40,000. It is to be located on the knoll, which is considerably higher than the present defective reservoir.

Law Will Address Chamber

"The Future of Hawaii in Relation to Trade on the Pacific" will be the subject of an address which Dr. Law of San Francisco will deliver before the Chamber of Commerce in the near future. Dr. Law, who took a prominent part in the rebuilding of San Francisco after the disaster, is a careful student of public affairs, and his ideas will be listened to with interest by the members of the Chamber.

Consul-General Wilder of Hong Kong, who was to have arrived here on the Nippon Maru, has cabled that official business has necessitated a change in his plans. He will be here before a great while, however, and will then deliver his promised address before the Chamber of Commerce.

\$1000 AVAILABLE FOR ALEWA ROAD

Work On Extension To Be Commenced Next Week

Acting Superintendent of Public Works Kluegel states that he expects next week to commence the construction of the Alewa Heights road extension. There is now about \$1,000 available for the purpose, and this will carry the road a good ways. Just where it will end will be left to some extent to the wishes of the Alewa Heights property owners, within the limits imposed, of course, by the amount of money available. A meeting of the Alewa Heights Improvement Club is called for next Monday night, at which it is probable that this matter will be considered.

Mr. Chiba, who arrived from Formosa in the Tenyo Maru, will leave for Maui this afternoon. As an engineer he will inspect the sugar mills on that island. He will return to Japan in the Korea, sailing May 27.

To Start Over 1000 New Suits

Before the first of next month over 1,000 suits are to be instituted by the Superintendent of Public Works against property owners of Honolulu who are back on the payment of their sewer rates. Before he left for the Coast this week, Superintendent Campbell gave instructions to have the suits all started by June 1, and the work is being rushed in the Public Works office.

There is something like \$62,000 delinquent in sewer rates, and heretofore there has been no way of compelling the payment of them. But the Legislature passed an Act which makes sewer rates a prior lien on the property, and with this to go on the department is going to make a vigorous effort to bring the reluctant ones to time. It looks as if the lawyers would have a busy time for a while. It is certain that the Government attorneys will find something to do.

SUGAR.

SAN FRANCISCO, May 7. — Sugar — 88 analysis Beets 10s 4 1/2d. Parity 4.19 cents. Previous quotation 10s 3 3/4d.

Meat Kokuewa, who is charged with assault and battery, had her case continued this morning till May 12.

INDICT STRIKERS TRUST MEN WORRY PARIS

NEW YORK, May 7. — Oliver Spitzer, dock superintendent, and six other employees of the American Sugar Refining Company have been indicted by the Federal Grand Jury for conspiracy in defrauding the Government. These indictments represent the move of the Federal government in the criminal prosecutions for the frauds perpetrated in weighing the sugar imports on which tariff duties were levied. The Trust has already paid two millions of dollars in the civil proceedings.

PARIS, May 7. — It is expected that the Attorney General will issue an order of dissolution against the union of government employees out on strike. This may bring about a serious crisis. The situation is by no means favorable, and there is an ever present fear of revolutionary outbreaks.

BROKEN RAIL HURTS 60.

SEATTLE, Wash., May 7. — Sixty people were injured here today by being thrown to the ground as the result of the breaking of a balcony rail in the grand stand. The people were observing the events of an athletic meet. The rail broke without warning and the people were thrown together in a jumbled mass.

MR. FAIRBANKS' DINNER

The executive committee of the Men's League wishes to remind all those who expect to attend the dinner to be given in honor of former Vice-President Fairbanks at the Royal Hawaiian hotel next Monday evening, May 10, that they must send in their acceptance TODAY. The idea of making this a ladies night is meeting with general favor. Acceptances already received indicate that there will be a large attendance. The Kamehameha Boys Glee Club will be on hand and will sing a number of their songs during the evening.

Send in your card to day or phone in your acceptance to 923.

MACON WILL COPY FLORAL PARADE

Macon, Ga., is planning to pattern after Honolulu and hold a floral parade. The souvenir pamphlet of the recent fete, which H. P. Wood of the Promotion Committee scattered broadcast over the mainland, has had its effect, and cities there are beginning to sit up and take notice.

Secretary Burns of the Macon Chamber of Commerce has written H. P. Wood that he is trying to boost along a floral parade, modeled on that of Honolulu, and that his efforts bid fair to be crowned with success. The letter, which arrived by yesterday's mail, follows:

"Macon, Ga., April 22, 1909.
"Mr. H. P. Wood,
"Secretary, Etc.,
"Honolulu, Hawaii.

"Dear Sir:—
"Your favor of the 5th with souvenir pamphlet and 'Picturesque Honolulu' duly received and assure you the same is highly appreciated.

I am endeavoring to imitate your automobile flower parade, having a gentleman who is the leader in society here interested in the movement. It was hard to get him interested until I handed him the souvenir pamphlet. Will advise you of the success I will have in the undertaking.

"Yours truly,
"(Signed) "H. BURNS,
"Secretary and Treasurer."

The "Crossroads of the Pacific" may continue to find favor. The following letter relating to it has just been received by Secretary Wood:
"Bloomsburg, Pa., April 21, 1909.
"H. P. Wood, Secy.
"Honolulu, Hawaii.
"My Dear Sir:—
"Please accept our thanks for the map, entitled 'Crossroads of the Pacific,' and the folder accompanying it, which were received. They have

May Force Gas Co. To Install Lights

Upon his return from Washington Superintendent of Public Works Marston Campbell will probably take steps to compel the Honolulu Gas Company to carry out the provisions of its franchise which require the company, upon requisition by the Superintendent of Public Works, to furnish free of cost gas for fifty street lights, and thereafter each year furnish five more in addition to the

number furnished the preceding year.

This is a provision which was only recently brought to the attention of Mr. Campbell. Section 897 of the Revised Laws, which is a part of the franchise granted to the company by Congress, says:

"Erecting lamp posts, etc. Said W. W. Dimond shall also have the
